HUSBAND RESCUED DESPAIRING WIFE

After Four Years of Discouraging
Conditions, Mrs. Balleck Gave
Up in Despair. Husband
Came to Rescue.

Catons, Ky.—An interesting letter from this place, Mrs. Bettie Balleck writes as follows: "I suffered for four years, with womanly troubles, and during this time, I could only sit up for a little while, and could not walk anywhere at all. At times, I would have severe pains in my left side. The doctor was called in, and his treatment relieved me for a while, but I was soon confined to my bed again. After that, nothing seemed to do me any good.

I had gotten so weak, I could not stand, and I gave up in despair. At last, my husband got me a bottle of Cardui, the woman's tonic, and I commenced taking it. From the very first dose, I could tell it was helping me. I can now walk two miles without stopping, and I am doing all my work. If you are all run down from womanly troubles, don't give up in despair. Try Cardui, the woman's tonic. It has helped more than a million women, in the 30 years of continuous success, and should surely help you, too. Your druggist has sold Cardui for years. He knows what it will do. Ask him. He will recommend it. Begin taking Cardui today.

Rotation of Crops to Prevent Disease.

"Rotation of crops is as important in growing vegetables as in growing field crops, and the same principles can be applied. Crop rotation is important in checking diseases and insects and in keeping the soil in good condition. Where diseases are very severe, the same crop should not be planted continuously on the same area. Rotation of crops is one of the safeguards against soil infection. Land upon which a diseased crop has been grown should not be used for the same or a closely related crop oftener than once in three years. It is usually advisable to rotate crops in such a way that foliage (such as cabbage, kale, spinach, and mustard) follow root crops (Irish potatoes, beets, parsnips, carrots, etc.) or those grown for fruits (tomatoes, peppers, melons, etc.) This can be accomplished in a measure by changing the location of crops in the planting plan or by reversing the plan from year to year." The same applies to rotation of cotton, corn, grain, etc. Write for free Clemson College bulletin, "Soil Building for South Carolina."

Easter Dresses

Pretty things, every one of them. Opened eleven yesterday afternoon, ready for you this morning. Of course, they are the very last word in style. They have to be or you wouldn't see them in our place. We select the following for description because they are exceptionally pretty:

| | |
|---|---------|
| Lavender Plaids, with combination of plain Taffeta and Georgette..... | \$50.00 |
| Hunter's Green Taffeta and Georgette Crepe..... | \$38.50 |
| Copen Blue, Georgette and Taffeta—new Hoop skirt..... | \$35.50 |
| Gray Taffeta, with touches of embroidery..... | \$32.50 |
| Copen Blue Sport Dress, white Crepe de Chine, purple tie..... | \$28.50 |
| Navy Blue Crepe de Chine..... | \$22.50 |
| Tan Crepe de Chine..... | \$18.50 |

This merely gives you the colors and combinations. We can't tell you all about the little touches here and there that are necessary to a well finished dress; and, by the way, you'll find more "little touches" about our clothes than you find about the ordinary sort.

We'd like to have you look these over today while they are fresh and while your size is in stock.

A Gift for Easter

One of these beautiful fans would prove one of the most acceptable gifts imaginable. A pair of Gordon Silk Hose, too, would be fine. Lots of other things.
